1 Specialist Engineer (SPE)

The Specialist Engineer shall be a Senior Solutions Engineer with considerable Yokogawa Solutions engineering experience.

The Specialist Engineer shall carry out the SE series checks on the project as designated by APC / MES head.

2 Responsibilities

- Support and guide the Solutions Engineer in the development of functional specification, including overall system configuration, network design, sub-system interface, supervisory-system interface, etc.
- Perform technical check for engineering and application software configuration.
- Develop templates for re-use, as directed by APC / MES head.
- Accumulate and disseminate industrial application know-how, as directed by APC /MES head.

3 Reporting

The Solutions Engineer reports to the Project Manager for all technical aspects concerning the project.

All PSC staff report to their respective department managers for administrative functions.
